

THE Connection CANISTER

In Moldova and Central Asia people do a lot of jarring and canning to ensure that there is ample food supply to last till the next harvest.

The needs are overwhelming in Moldova, Ukraine and many parts of Eurasia. The atrocities of war, influx of refugees, poverty, energy crisis, rapidly increasing prices, Christian persecution, etc. are all having an impact on Keys Connections' partners.

Together we continue to seek a spiritual harvest and we would appreciate your support as we prepare to meet these many needs. Please consider placing a donation of any size in the 'Connection Canister'.
